NUMBER 304.

THEY WILL RESIST IT.

Effort to Make Recognition of Miners' Union an Issue in Arbitration.

OPERATORS FILE THEIR REPLIES.

Oppose All the Demands Made by Mitchell's Men and Blame Their Organization For All the Ills in the Coal Fields.

Washington, Nov. 12.—That the anthracite coal mine owners will resist to the utmost every effort to make the reorganization of United Mine Workers of America an issue in the arbitration which is now in progress was made evident by the replies to the statement of President John Mitchell of the miners' organization, which have been filed with the strike commission. There are five of these answers in addition to that of President Baer, and all dwell with especial emphasis and marked unanimity on this point. They also agree in resisting the demands of the miners for an increase of pay for piece work, a reduction of hours for time work and for the weighing rather than the measurement of coal. Recorder Wright left for anthracite regions, taking these replies with him. In addition to the statement made for the Reading company by President Baer, the list comprises the replies of the Delaware and Hudson company, the Delaware and Lackawanna, the Lehigh Valley, the Pennsylvania and the Scranton Coal company.

President Truesdale of Delaware and Lackawanna company says that the company owns 25 collieries and employs 12,000 workmen in this branch of its business. Mr. Truesdale, like Mr. Baer, objects to making the recognition of the union one of the issues to be considered by the commission, saying that in the proposition made by the company for arbitration, one of the express conditions was, that the findings of the commission should govern the conditions of employment between it and its employees. He adds: "This company unequivocally asserts that it will under no condition recognize or enter into any agreement with the association known as the United Mine Workers of America, or any branch thereof. Nor will it permit said association or its officers to dictate the terms and conditions under which it shall conduct its business."

Oppose Miners' Union.

Referring to the recent strike, Mr. Truesdale says that he is reliably informed that 80 per cent of its employes were opposed to the strike, but were forced to enter upon it by a majority vote of the mine workers in other fields. Mr. Truesdale follows closely the lines of Mr. Baer's arguments as to the dissimilarity between the work in the anthracite mines and that in bituminous mines. He declares that it is impossible to adopt a uniform rate to be paid to the miner, for a unit of coal mined at all mines. He says that: "Prior to the introduction of agitators and mischief makers the anthracite workers were on an average as prosperous, comfortable and contented as any body of workers in similar employment in this country." The wages, it is added, are such that frugal employes have saved a substantial amount every year. Mr. Truesdale resists the demand for a reduction of 20 per cent in hours of labor, saying that no such branch of business employing thousands of men can hope to compete successfully in the markets of the world, if its hours of labor are restricted. He declares that there is no unjust discrimination in the weighing of coal.

President Olyphant of the Delaware and Hudson company, in his reply, declares that the wages paid by his company are just and adequate. Denial is made of all the allegations in connection with the demand for shorter hours and it is contended that such a reduction necessarily would increase the price of coal. While admitting that the mine owners sell their coal by the ton, he says that the coal thus sold is a very different article from that taken out of the mine. President Olyphant takes exception to the proposition to arbitrate the question of the recognition of the miners' union.

President T. P. Fowler speaks for the Scranton Coal company and the Ell Hill Coal and Iron company. He says they own 15 collieries and work 5,000 men. He asserts that if the average wage earned by the anthracite piece workers is less than that paid to workers in other employment it is because "they fix their own hours of labor and the amount of their earnings without any regard to the interests or wishes of their employers and in total disregard of the earnings and welfare of every other class of em-

ployees." On the question miners' unions, Mr. Fowler says: "We deny that agreements between employers through workingmen's organizations are beneficial and successful in the bituminous coal fields or elsewhere."

MONEY QUESTION

A Serious One in the Philippines. Governor Wright's Idea.

San Francisco, Nov. 12.—Vice Governor Luke E. Wright of the Philippines, speaking of financial affairs in the islands, said in an interview that the money market is continually fluctuating. "A bill to afford the necessary relief was presented to congress, but not passed," he said. "I think that for the benefit of commerce the matter should again be taken up at the next session of congress. It has been suggested that a Filipino dollar of silver should be introduced in the islands. This dollar should be worth actually 50 cents of our gold money. I think such a coin would remedy the recent financial situation. Such monetary system would be similar to the one now in use in Japan. I would not like to see the doors thrown open to the Chinese. Skilled labor, yes, if limited, would certainly prove beneficial. Some of the Chinese are very clever and they would be able to teach the Filipinos many of the industries."

Governor Wright, accompanied by his wife, expects to leave for the east Thursday night.

Miners in Conference.

Wilkesbarre, Pa., Nov. 12.—President Mitchell of the United Mine Workers, and several members of the executive board of the United Mine Workers of the Third anthracite district, were in session at miners' headquarters. Later they were joined by a half dozen attorneys that Mr. Mitchell has employed to look after the legal status of the miners' case, before the arbitration commission. There was a general discussion of the situation. District President Duffy, commenting on President Baer's statement in reply to the one filed by President Mitchell with the commission, said: "The time for controversy has now passed. Facts will tell before the commission."

Girl Pleads Guilty.

Cambridge, Mass., Nov. 12.—Nina K. Danforth, the deformed Framingham girl, pleaded guilty here to manslaughter in causing the death of Andrew J. Emery, whom she shot and killed at his home in South Framingham on May 17 last. It was claimed that Emery had led the young woman to believe that he was in love with her and would marry her and that she shot him upon learning that he had a wife and children. She was sentenced to serve a year and nine months in the Cambridge house of correction.

National Grange.

Lansing, Mich., Nov. 12.—Grand Master Aaron Jones called the annual meeting of the National Grange to order in Representative hall. After the appointment of a credential committee, the Grange immediately adjourned till afternoon, when Grand Master Jones read his annual address. In it he dealt with many of the important questions of the hour. Delegates from 26 states are attending the meeting and they will be in session until late next week.

Lady Somerset Sails.

New York, Nov. 12.—Lady Henry Somerset, temperance advocate, sailed for England on the St. Louis. "I have been a month on this side," she said. "I came to attend the W. C. T. U. convention at Portland, Me. There is nothing I can say before leaving, and I will not make a formal report to the organization to which I am a member on my return, though I will probably speak on what I have observed in this country."

Crushed in an Elevator Shaft.

Washington, Nov. 12.—Charles Faunce, 35, a painter, was struck and instantly killed by the descending weights in an elevator shaft in the patent office building. He had leaned into the shaft to locate an article which had fallen from an upper floor and did not notice that the cage was in motion.

Bolivian Government Active.

La Paz, Bolivia, Nov. 12.—It is reported that the government will issue two to three million Bolivian dollars in paper money to defray the expenses of the Acre expedition, which it is now announced will number 2,000 men. The troops will be commanded by President Pando in person.

New York, Nov. 12.—Further details in regard to the proposed ax and tool combination, which will be known as the International Ax and Tool company, show that the authorization of securities is \$42,000,000. Twenty-seven companies are reported in the deal, two plants located at Evansville, and New Albany, Ind., having been added to the original list.

SLATE NOW ARRANGED

Promotions to Fill Prospective Vacancies in the Regular Army.

CHANGES TO OCCUR THE COMING YEAR.

Major General Young to Succeed Miles as Lieutenant General. Wade, Sumner and Wood Advanced.

Washington, Nov. 12.—The date for the promotion of major generals to fill vacancies caused by retirements to take place next year, has been arranged. There will be three vacancies, General Hughes retiring April 11, General Davis July 26, and General Miles August 8. The latter is Lieutenant general and will be succeeded by Major General Young. The brigadiers to be promoted to be major

GENERAL S. D. M. YOUNG.

generals are James F. Wade, Samuel S. Sumner and Leonard Wood. These men are now the three ranking brigadier generals in the order named. General Wade has been a brigadier general since May, 1897, and has seen many men advanced to the higher grade while he has remained stationary. It is presumed that he will succeed General Davis in command of the Philippines when the latter retires next July. It is expected that Colonel H. C. Hasbronk of the artillery will be made a brigadier general and retired and that Colonel F. M. Moore of the cavalry will be elected for a long service.

Robbed Miner Goes Insane.

New York, Nov. 12.—Homeward bound with a bag of gold nuggets and his pockets full of cash, \$5,000 in all, won in the mines of French Gulana, Jacques La Travers, a native of France, has been robbed in this city and is now in the insane ward at Bellevue. Traverse and his partner had reached this city on their way back to France and as neither understood English they took a room in a lodging house near the docks. Both displayed their treasures carelessly and when La Travers went out alone to purchase a watch, he is believed to have been induced to drink drugged liquor. He returned shortly to his room, his gold gone. When he realized his loss he became violently insane and was taken in charge by the police.

Strike at Pittsburg.

Pittsburg, Nov. 12.—Fourteen men in the Schoenher plant of the American Steel and Wire company, this city, went out on strike and as a result of the action, 250 men in the open hearth department were laid off. The men claim that if the strike continues 24 hours that the plate mill will have to shut down, throwing 150 workers out in that department. The ironmen have been receiving \$2.40 a day with one-fourth day's pay for an extra heat. The company wants them to work on the tonnage plan, which the men claim would be a reduction instead of an increase.

To Recover Treasure.

San Francisco, Nov. 12.—There is no longer any doubt that the object of the schooner Louisa D, about ready to sail for the south, is to attempt to recover a part of the treasure lost in 1862 by the burning of the Pacific Mail steamer Golden Gate, at Manzanillo, on the Mexican coast. The wreck of the Golden Gate caused the loss of 200 lives and property valued at \$1,750,000. Much of this amount was in the form of bullion and a considerable quantity of it was never recovered.

Mackay's Remains.

New York, Nov. 12.—Resting in a mortuary chapel, a large room between decks, having been fitted for that temporary use, the body of John W. Mackay arrived on the White Star liner Oceanic from Liverpool. Mrs. Mackay and her daughter, Princess Colonne, were passengers on the same steamer.

PRINCE CUPID.

Hawaii's Delegate to Next Congress Defeats Wilcox.

San Francisco, Nov. 12.—The steamer Alameda, from Honolulu, brings the news that the recent election in the territory of Hawaii resulted in a Republican victory. Prince Kalanianaole, popularly known as Prince Cupid, was elected delegate to congress over Robert W. Wilcox, the incumbent, and Democratic candidate by a majority of over 2,000. When the Alameda left the island port, the full election returns had not been received. The island of Maui had not been heard from and the exact result of the election of candidates for the territorial legislature was uncertain. The legislature will be almost entirely Republican, however, as 15 Republican representatives and five senators are known to have been elected. When the Alameda is released from quarantine a telegram from Governor Dole to President Roosevelt announcing the result of the election as given above will be sent to Washington by the purser of the steamer. Prince Kalanianaole, the congressional delegate-elect, is a full-blooded Hawaiian, and has in the past been identified with the home rule party.

SECURED BY FRAUD

Were Thousands of Acres of Government Land in California.

San Francisco, Nov. 12.—State Mineralogist Asbury has sent to the secretary of the interior a report prepared under his direction by Horace Stevens, which contain many detailed statements going to sustain the charge that government lands in California are being secured by fraud. The state mineralogist and the Sacramento Valley Development Association being satisfied that mineral lands in this state were being secured under timber entries and that timber lands were being taken under placer locations, memorialized President Roosevelt to withdraw from entry part of the public domain in this state pending investigation. The response to this was an order temporarily withdrawing from entry the lands in the Susanville district. The first result of the investigation is the report of Mr. Stevens. He gives facts including names and figures to show that hundreds of thousands of acres of land have recently been taken up under various laws by a very small number of persons.

Bankers Discuss Currency.

New Orleans, Nov. 12.—The second day's session of the American Bankers' Association was resumed after prayer by Bishop G. A. Rauxel. Under suspension of the rules, Colonel Lowery of Georgia asked that Mr. Kittridge, the secretary of the bureau of education, be allowed to say a few words about the bank clerks' institute. Mr. Kittridge made a short verbal report, in addition to the formal report, John L. Hamilton, chairman of the committee on fidelity insurance, took up the report of that committee which was formally presented Tuesday. The call of states was deferred until later. The discussion of the currency question was then begun. Congressman Charles N. Fowler spoke on assets, currency and branch banking. He discussed the features of his bill exclusively.

Education of the Indian.

Washington, Nov. 12.—Superintendent Peairs of Haskell Indian Institute in Kansas, in his annual report, says that although at times the results of the work of education among the Indians do not satisfy the onlookers, to those who are in the work and therefore have opportunities to observe the gradual development of individuals, there is more and more of encouragement and satisfaction. As proof of the permanent good results of training the Indians, the report says, 39 graduates, previous to the classes of 1902, at least 77 are at work earning their own living and in many instances aiding needy parents or supporting in a respectable way a little family of their own.

Ohio Valley Improvement.

Parkersburg, W. Va., Nov. 12.—Evansville, Ind., gets the next meeting of the Ohio Valley Improvement Association. The association adjourned after a most successful meeting. Resolutions were adopted favoring immediate action on the part of congress to bring the Ohio river to a 9-foot stage by the construction of locks and dams. The old officers were re-elected, J. L. Vance, president; E. P. Wilson, secretary, and J. D. Parker, treasurer. A large fund was raised to promote the interests of the association.

Victim Succumbs.

New York, Nov. 12.—Rachel Rosenberg, 94, who was partly asphyxiated and was injured in attempting to escape from the building in Avenue C, which was wrecked by an explosion, is dead. The others injured, numbering nearly two score, are progressing favorably toward recovery.

CUBA IS IN NO HURRY.

Can Get Along Indefinitely Without Reciprocity With Uncle Sam.

PROPOSED REBATE INSUFFICIENT.

Important Conference Bearing on the Subject Held at Washington, High Government Officials Participating — Delayed Draft.

Washington, Nov. 12.—An important conference bearing on the subject of the Cuban reciprocity treaty was held at the war department, the participants being Secretary Hay, Secretary Root and General Tasker Bliss. The latter was called into conference at Secretary Hay's suggestion, because of his expert knowledge of the existing Cuban tariff. Before the conference at the war department Secretary Hay had talked on this subject with Senator Culom, chairman of the senate committee on foreign relations, and also with Senor Quesada, the Cuban minister here. Senor Quesada was not able to submit to Secretary Hay the draft of the reciprocity treaty which has been under consideration so long by the authorities at Havana, as the document has not left that place. So officially the United States government continues in ignorance of the extent and character of the changes, if any, which President Palma may desire to make in the treaty.

In other than official sources, however, has developed pretty clearly the disposition of the Cuban president in this matter. The cardinal objection of President Palma to the treaty as it stands is the insufficient rebate of 20 per cent proposed to be allowed on Cuban imports into the United States, and Secretary Hay's purpose is to ascertain, if possible, how far he can yield in that matter and still be able to rely upon the support of congress next session, when the treaty is submitted. So far his advices do not favor any increase of the rebates and, indeed, he has been assured by some persons with whom he has talked, that under no conditions would congress consent to any substantial increase of this rebate.

It is understood that the Cubans, too, are entirely unwilling to accept any small increase, in the face of a great shortage in the European crop and a rapidly rising market they have acquired confidence in their ability to get along for an indefinite period of time without reciprocity with the United States, and so it is understood they are showing an indifference in the prosecution of negotiations.

President Roosevelt En Route.

Cincinnati, Nov. 12.—The special train carrying President Roosevelt and party arrived here from Pittsburgh and Columbus over the Pennsylvania lines, and left for Louisville over the Louisville and Nashville road. No stops were made at any point. The president will reach Memphis Thursday morning, when he will be joined by President Fish and the journey to Mississippi will be made over the Yazoo and Mississippi railroads. The next destination of the president has been kept secret. A camp has already been prepared in northern Mississippi, a few miles from the line of the railroad, and it is understood one of the best packs of hounds in the south is waiting to be slipped on the trail of old bruiser on the president's arrival.

Cost of Molineux Trial.

New York, Nov. 12.—It has been estimated the trial of Roland B. Molineux has cost more than any other for a capital offense in any country where the English system of jurisprudence is in vogue. The cost to the county of New York in the first trial amounted to \$250,000. This was expended in various directions, largely in fees for handwriting experts who were brought from distant states and for detectives who endeavored to trace Molineux's movements from his fifteenth birthday to the time of his arrest. The defense expended about \$75,000 in the first trial and it is estimated that the total on both sides for the two hearings will foot up nearly \$500,000.

HUNTER RESIGNS.

Leslie Combes Appointed Minister at Guatemala City.

Washington, Nov. 12.—W. Godfrey Hunter has tendered his resignation as United States minister to Guatemala. The president has accepted the resignation and has selected Leslie Combes, at present United States pension agent at Louisville to succeed Dr. Hunter as minister at Guatemala City. Mr. Hunter is also minister to Honduras, and Mr. Combes will likewise assume that post. Dr. Hunter has had a stormy career in Central America ever since he went there in 1897. The place pays \$10,000 a year.

FISCAL COURT.

Business Transacted on the Closing Day of the Fall Term—Railroad Bonds to be Paid.

The Mason Fiscal Court was in session Wednesday, and completed the business of the fall term.

The action of the County Judge in buying a safe for his office at a cost of \$65 was ratified. Also his action in buying a Champion road machine for \$225 and paying for it out of the general fund.

The County Clerk was directed to list for payment the claims of officers of election and registration, and also for rent of rooms for election.

All claims allowed at this term were ordered listed with the Sheriff for payment.

A telephone box was ordered placed in the county jail and also in the Circuit Clerk's office and Sheriff's office.

A motion to allow each Magistrate outside the city of Maysville a telephone box was lost.

Squires Cochran, Perrine and Dressell and the County Attorney were appointed a committee to consider sale of infirmary land.

Squires Rice, Farrow and Cochran were appointed to arrange a schedule of licensees for vehicles run for hire in Mason County and report at April term.

Squire's Thompson, Clarke and Farrow were appointed a committee to look into the condition of the free pikes and report at April term.

The Sheriff was directed to deposit all back tax collections with the county Treasurer.

The County Treasurer was directed to pay off \$14,000 of the Maysville and Big Sandy railroad bonds January 1st, and for this purpose he will transfer \$7,000 from back tax fund.

Each Magistrate was allowed \$0 for three days attendance at court.

The County Judge was allowed \$100 for extra work in connection with turnpike business.

Squires Thompson, Grant and Clarke, with J. Harvey Rice, were appointed a committee to confer with the Board of Trade in reference to electric roads.

The school at Mayslick was dismissed Wednesday so that the teacher and pupils might attend the burial services of little Hal Dimmitt who began his school life there. The teacher in his room here as well as several of the other teachers also dismissed school, and attended and brought floral offerings, all of which is a great consolation to his family.

Speaking of the marriage of Mr. Harold Collins and Miss Mae Miles at Millersburg Tuesday, brief mention of which was made yesterday, the Paris Kentuckian's correspondent says: "They left for a trip to Louisville, Jeffersonville and Cincinnati, and will be at home to their friends after November 17th in Maysville. Mr. Collins is a business man of Maysville. Miss Miles is a daughter of Mrs. Swift, who was formerly Miss Batterson. Miss Miles is a very handsome woman and much admired at her home and here, where she often visited."

YOUTSEY'S CONFESSION.

It is Said He Has Gone into Full Details of the Plot to Kill Gov. Goebel.

[Lexington Leader.] The attorneys of the prosecution are in possession of the chief points of the Youtsey statement. One of these, admitted, after promise that he would not be quoted, that the statement had been made. He was pledged not to reveal its contents.

There are some interesting rumors afloat as to the contents of the confession, as it is called here. It is said to have been made voluntarily and without hope of release or commutation of his sentence.

Youtsey began his preparation of it last May. He first jotted down in shorthand, at which he is an expert, all the incidents and happenings of the memorable political struggle of 1900, and then transcribed his notes and signed the document, which he later turned over to Judge Cantrell. Only one other person than the Judge is said to have seen the statement in full, and this person read it before it was handed to Judge Cantrell.

It is believed here that Youtsey's desire to become the Private Secretary to Governor Taylor and his close relation to Taylor during December, 1899, and January, 1900, led him into the acts which brought about his conviction for conspiracy in the murder of Goebel.

An attorney here, not of the prosecution, but who has close relationship with the investigation into the murder, says that Youtsey bore the same relation that Wm. H. Culton did to Caleb Powers and Charles Finley, and that Youtsey's confession will bear this out. He says that Youtsey was the man to collect the money and Culton to gather together and take charge of the mountain men brought here.

He says that Youtsey did collect the \$1,200, to which sum State Treasurer Walter Day swore he was asked to contribute for the purpose of paying a mountain man to kill Goebel, and that Youtsey has in his statement furnished the names of the parties who contributed to this fund. Youtsey's memory is said to be remarkably clear as to the happenings of number of incidents heretofore testified to in the Powers and Howard trials, especially as to the use of any keys of the private office of the Secretary of State, and the testimony of both Culton and Wharton Golden will, it is said, be corroborated in many important particulars.

He has implicated in a minor way, according to the stories told, in having knowledge that murder was to be done, several persons well known, whose names have not been connected with the affair before this time except in whispers. In every detail of his movements for two months preceding the killing, and for the time following it until his arrest, the prisoner followed the advice given to him by Attorney James Andrew Scott, of this city, to whom he turned first when suspicion fell upon him.

It will be remembered that on the hour of his arrest he begged to be taken to the officers of the Commonwealth,

promising to make a confession, but the arresting detectives declined, suspicion then pointing to him as the man who fired the shot.

Other testimony, said to be corroborated in the statement, is that of Lieut. John Ricketts, of Barbourville, who said that about ten minutes before the shooting Youtsey came to him in the State Agricultural building and ordered him to take a squad of his men to the west entrance of the Executive Building near the private entrance to the office of Secretary of State, from which Youtsey himself came running just as the rifle

cracked. What he has told of the occupants of that room at that moment is being closely guarded and will doubtless be kept secret until the indictment and arrest of the persons charged by him, that is if they are not beyond arrest.

The officers of the Commonwealth have felt since the arrest of W. H. Culton that he has dodged quite a good deal on questions propounded to him, answering that he could not just then recall the circumstances, and Youtsey's statement will put it up to him, so it is said, to answer some questions more direct as to his own action than any he has yet been called on to answer.

Information considered to be thoroughly trustworthy regarding the whereabouts of John L. Powers, brother of Caleb Powers, has come to the officers of the Commonwealth. He is said to have been living in Guatemala for several months.

SPEECHES BY KENTUCKIANS.

Congressmen Kehoe, Stanley and Sherley Made the Hit of the Day at the River Convention.

A Courier-Journal dispatch from Parkersburg telling of the convention of the Ohio River Improvement Association, says: "Three Kentuckians took the convention by storm with their speeches. They were Representatives-elect Swagar Sherley and A. O. Stanley and Representative J. N. Kehoe, and they made the hit of the day with their witty, eloquent and practical remarks. Mr. Kehoe, who accused Gov. White of trying to steal Kentucky's bluegrass, because he said West Virginia had more bluegrass than Kentucky, said there was no more beautiful sight than a bluegrass sward, but as there was only one Heaven so there was only one Kentucky. He favored the issuance of bonds to pay for the immediate improvement of the river that posterity might help pay for the improvements they would enjoy. He urged organization among the Congressional delegations and united efforts.

"Mr. Stanley spoke highly of Kentucky. Others had told of the greatness of Pittsburgh and Ohio. Mr. Stanley said he had no word of praise for his native State; that it would be like adding perfume to the rose. 'Man,' he said, 'has made Pennsylvania and Ohio great, but Kentucky is a perfect work of God.' He said no other stream in the world flows through so rich a territory as the Ohio, and he spoke of the benefits an improved river would be to the further development of Kentucky."

C. M. Barnett, Chairman of the Republican State Central Committee, will shortly call a meeting to close up the affairs of the late campaign committee, of which Mr. R. P. Ernst, of Covington, was Chairman.

Managers Russell, Dye and Frank of the Washington Opera House announce the second engagement of the Castle Square Opera Company in Pixley and Luder's successful comedy-opera "King Dodo." After a most prosperous season in all the large cities, Henry W. Savage, manager of the above company, will give Maysville patrons the opportunity of enjoying an evening that will be profitable to all lovers of catchy music. "King Dodo" will be given with the same gorgeous stage settings that characterized its production at Daly's Theatre, New York City, a cast of Metropolitan favorites, and a chorus of rare beauty and vocal ability.

No comedy-opera has more pleasing numbers. On "King Dodo's" re-entree to Chicago on the second day of August at the Studebaker Theatre the house was sold out days in advance. "King Dodo" will be here December 2nd.

MRS. MARSHALL WINS.

Suit to Break Will of Her Father, the Late T. F. Marshall, of Augusta, Deeded in Her Favor.

A telegram received yesterday morning, just after we went to press, announced the decision of the famous contested will case of Marshall against the Town of Augusta, in favor of the plaintiff. The jury was out three hours and brought in a unanimous verdict.

Mrs. Marshall's lawyers showed throughout an almost chivalrous devotion to her cause, and the efforts which they made in her behalf in the preparation of the case, in the examination of witnesses, in the discussion of contested points will long be remembered by members of the Kentucky bar. Mr. Cleveland was repeatedly cheered during his speech, in spite of the warnings of the court; and Judge Harmon spoke so powerfully—with so much feeling and effect as to bring tears to many eyes. His effort is said to have recalled some of the best efforts of the late Colonel Wade, worth in his best days.

Mr. George Doniphon has won much applause by his skillful and sagacious management of Mrs. Marshall's case. The amount involved is \$110,000.

BITTER FEELING

Against Alvin Burgess Who Killed Walter Peck in Fleming.

Prisoner Brought Here Last Evening and Lodged in Maysville Jail for Safe Keeping.

Alvin Burgess, who has confessed to killing Walter Peck in Fleming County Tuesday night, was brought here last evening by Sheriff Collins of that county and lodged in jail for safe keeping.

The feeling in Fleming is very bitter against Burgess, as the killing was without provocation.

Peck, who was about eighteen years old, was with a young companion returning, horseback, from church at Tilton. His brother and the latter's sweetheart were also returning in a buggy, and the two young men on horseback concluded to repeat a prank they had played on the young lovers the night before—block the pike with some fence rails. While young Peck's companion was placing the rails across the road, Burgess appeared on the other side of the fence and began firing on the two. Young Peck was mortally wounded and fell from his horse a short distance away. He died while his brother was taking him home in the buggy.

Burgess claims the shooting of Peck was an accident, that he simply shot to scare the boys. It is reported, however, that he fired six shots in all, and followed young Peck some distance.

Burgess is about forty years old, is married and has two children. He has the reputation, it is said, of being a man of quarrely and disagreeable disposition.

Peck was a son of a prominent farmer and was a young man of good reputation.

Thomas Hill, of Germantown, and Miss Julia Lee Manion, of Sardis, marry to-day.

Mr. Jas. Maley, of North Fork, showed the BULLETIN samples of the fine corn he raised this season on the McKibben land.

RIVER NEWS.

One of the Proposed Dams in the Ohio to Be Located Below Dover.

[Ripley Bee.]

At the special meeting of the Commercial Club held last Friday evening, Mr. Walter A. Knight presented an interesting report and maps from the U. S. Engineering Corps that made the survey of the Ohio river. On this plan Dam No. 31 is located nearly three miles below Ripley, just below Dover and Leavenworth. It will form a pool twenty-seven miles long on a six-foot dam, and longer on a nine-foot dam. This will extend beyond Maysville to Manchester, where another dam will be located at Manchester Island. There will be over twenty feet of water in the main channel at Ripley, with a wide river, good shores and fine landings on both sides of the river.

This will be one of the best harbors on the river above Cincinnati, and the pool will certainly be a center of business and industry.

The cost of building the dam will be about a million dollars. Its construction will make a great deal of work and busi-

ness here, and dispense plenty of money for labor and supplies in the five years needed to complete the work.

Two more dams are located between here and Cincinnati, one at New Richmond and one at Five Mile Bar.

Congressman Kehoe is in favor of the Government issuing bonds to pay for improving the Ohio so as to give a nine-foot stage from Pittsburgh to Cairo the year round.

Captains Charles Fleisher and Harry Proctor K. Smiley of their mother, and took her to Point Pleasant, W. Va., where she will be given a general overhauling.

Mr. and Mrs. T. S. Thomson, of Ripley, received a cablegram Tuesday announcing the safe arrival of their daughter, Miss Alice Kate, at Cherbourg, France.

W. B. Pinckard, of Paris, and Mrs. Mary E. Preble, of near Millersburg, were married recently. The groom was a widower with four children and the bride a widow with two children.

Dr. L. McDowell, of Flemington, who has been seriously ill, is improving.

A letter from a lady in Chicago, distinguished in musical, religious and club circles, explains Mr. Walter B. Phister's political campaign. She writes: "Mr. Phister's election was considered assured, so popular was he. Myself and husband were about calling to offer congratulations, when the surprising news came.

The result came about this way—Oliver Stewart, the most eloquent prohibition orator in America, was placed in nomination—as the ward is the one prohibition section of the city. A favorite Jewish Rabbi was also brought into the field. Many cultivated and wealthy Hebrews have their palaces in that ward. These two divided the vote of the main parties." The writer adds Mr. Phister had "knights worthy of his steel."

The Fleming Fiscal Court has granted James Pogue and John Shanklin privilege of erecting a telephone line along the Mayfield and Johnson pike.

"It is the little rift within the lute which, ever widening, makes the music mute." It is just a little rift in the health of a woman often which gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the obnoxious examination, the local treatments, of the home physician. There is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman, suffering from what are called "female troubles," to renew the health and cure the disease. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy cheeked," but it gives them back the vigor and vitality of youth.

Free. Dr. Pierce's People's Common Sense Medical Adviser, 1,008 pages, is sent free on receipt of twenty-one 1-cent stamps to pay expense of mailing only. Address, Dr. R. V. Pierce, Buffalo, N. Y.
